

FOR THE CHILDREN ENDOWMENT FUND - \$1,000,000

Establish a \$1 million *For the Children* Endowment Fund designed to help LSC meet the future needs of children in North Carolina through innovative programs and services. To create a light that shines for years to come, LSC hopes to raise a total of \$10 million in donations and legacy gifts within the next 10 years.

Annual earnings from the endowment will be used to support services for children where they are needed most. These funds might be used to:

- » Offset unanticipated decreases in funding and/or unanticipated program closures by the federal or state legislature.
- » Invest in training to support LSC's clinical model of care for children, as well as ongoing updates and credentialing needs.
- » Support training for youth in budgeting and financial matters.
- » Invest in new tools to assess the needs of children coming into care.
- » Provide direct assistance to children aging out of foster care, but below age 21, as they are seeking housing, education, and employment.
- » Invest in updated software tools to help record and analyze the outcomes experienced by children in care.
- » Provide support and services to survivors of human trafficking under the age of 21.
